

Working Caregiver Program

The Center on Aging at the University of Miami Miller School of Medicine is conducting a research study to evaluate the effectiveness of a multi-component Internet-based intervention program to improve the health and well-being of caregivers and the ability of caregivers to balance employment and work responsibilities.

You are eligible to participate if:

- You are the primary caregiver of an older adult who is > 50 yrs
- You are 21 years of age or older
- You are currently employed full or part time at the University of Miami
- You have access to telephone and computer at work or at home
- You plan to remain at the University of Miami for at least 9 months

Most of the study will be held online. You will be compensated for your interview time.

If you are interested in the study, please call:

(305) 355 – 9200
